Matomo,...

JOLAN WUYTS

HE/HIM

I've been working at Europeana for over five years, out of passion for a strong European Union united by cultural diversity. My mission has always been to support others in achieving their tasks, to provide advice and guidance with my expertise, and to bridge the gap between technical and non-technical teams. I'm eager to take on new challenges that continue to support my peers and connect our vision to implementation.
